

Protective clothing

# Storage racks for x-ray protective clothing

102/C/06 (for 6 garments)

102/C/11 (for 11 garments)

## Ideal storage for protective clothing

## Features

- > Racks move easily on braked castors
- > Racks are compact and can be parked at any convenient location and moved as required.
- > Swivel hangers fan out to enable aprons and coats to be selected, removed and replaced with ease
- > Hangers have the correct shoulder shaped profile to ensure suitable storage for protective clothing.
- > Ideal for departments where Kenex wall racks cannot be installed.

## Weights, dimensions & ordering information

Dimensions: 61cm wide x 64cm deep x 155cm high  
Easy to assemble flat pack size: 155cm x 66cm x 22cm.  
Packed weights: 22 kg & 26 kg.

**Mobile System 102/C/06** for 6 garments

**Mobile System 102/C/11** for 11 garments

**Kilt / Skirt Hooks 100/427** One pair of hooks can be simply added to a swivel hanger at any time. Loops fitted inside a garment are then used to suspend them from the hangers.

**Note:** Care should be taken when moving a rack when laden with protective garments, as they could swing from side-to-side and cause the rack to overbalance. If in doubt ask another person to assist.

**Quality management systems and certification** Kenex is certified to ISO 13485:2003 & ISO 9001:2008 for the design & manufacture of medical devices, and certified to EU-Directive 89/686/EEC for personal protective equipment. Kenex has in place methodology for indentifying, addressing and evaluating risk in accordance with standard ISO 14971:2007. All Kenex products are CE certified.
