

Lift-off top shields – for ‘E’ range lower body shields

312/DS/3.32* - (57 cm wide top)

312/DS/3.30 - (27 cm wide top)

312/DS/3.41 - (27 cm wide top – short) - For use on lower body shields fitted with an accessory rail

* 312/DS/3.32 is not compatible with lower body radiation shields E-013 & E-023. Specify 312/DS/3.32/3 instead.

Removable 0.5mm Pb X-ray protective lift-off top shields

Each top shield quickly and easily attaches to several different Kenex lower body radiation shields, providing additional protection to the user (see over for compatibility). They simply slot into docking holes, and can be removed in an instant. Each can be stored on a wall rack when not required (available separately).

Weights, dimensions & ordering information

Weights and dimensions are subject to manufacturing tolerance

Wall rack – 312/W-TOP
(tops not included)

Lower body radiation shield – 312/E-020
(shown with three optional top shields)

Lower body radiation shield – 312/E-020
(reverse side showing location of three optional top shields)
